

## Oil resistant agent

### RF-7610

#### Features and advantages:

RF-7610 is a levelling oil resistant agent suitable for solvent-based coatings with good high temperature resistance

1. When the substrate is contaminated by silicone oil and grease, it will cause the coating problem (such as poor adhesion, pinholes, craters, etc.), which can effectively solve the coating problem.
2. With excellent leveling, smoothing and release characteristics, it can be used in heat resistant non-stick kitchen paint formula, heat resistant temperature up to 250°C.
3. Fabric processing applications, soft. Water and smooth effect, increase the durability of washable.
4. Poor recoating

#### Physicochemical property:

appearance	Clear to a turbid liquid
Nonvolatile fraction	≥98%
Specific gravity	About 0.964
chroma	≤40
viscosity	50-125CP
Acid number	≤0.5
Make up	Modified polysiloxane

**Product application:** solvent-based coating solvent-based ink

**Usage:** Please test the optimal amount before use; Stir well and use

**Addition amount:** Add 0.05%-0.30% to the full amount

---

**Storage conditions:** Keep away from heat and fire, in a cool and ventilated place, keep the container close, and the storage environment is 0°C to 40°C.

**Packing:** Net weight: 200kg/25kg

**Validity:** RF-7610 from the date of production, the warranty period is 24 months
