

Oil resistant agent

RT-3020

Features and advantages:

1. With very low surface tension, can solve the phenomenon of shrinkage cavity, ghost, silk.
2. For substrates that are difficult to wet, it improves dust and paint mist tolerance and allows for a thick film on the vertical surface.
3. It can effectively prevent the formation of Benard vortex and improve the anti-adhesion property.

Product specifications:

Appearance	Colorless to yellowish liquid
Solvent	xylene
Valid copy of	50%

Application:

solvent-based coatings light curable coatings

Recommended dosage:

0.1-0.5% of total formula

Usage:

can be added at any time in the production process, please stir evenly, please test before test.

Packing:

25kg non-recycled blue iron drum. The product is not used completely, after use must cover tightly inside and outside.

Storage:

Technical Data Sheet

keep away from heat and fire and keep away from light.
