

General purpose wetting agent

RK-8230

Features and advantages:

1, fairly RK - 8230 is a generic nonionic surface active agent, to all sorts of fillers are good wettability, assist the initial viscosity of dispersant can significantly reduce the system at the same time, surface tension to improve grass-roots wetting effect, also can improve the carbon black, phthalein dragonhead, phthalein green organic paste tank caused by float hair flower color, film.

2, the main chemical composition of RK-8230 is alkyl phenol polyoxyethylene ether, is a multi-purpose surfactant, can effectively improve the compatibility of various color fillers and water phase, suitable for all kinds of water system wetting.

Product specifications:

| | |
|-----------------|-----------------------------------|
| appearance | Clear liquid |
| PH | 7.0 |
| Valid copy of | 70% |
| HLB | 13 |
| Surface tension | 32 (25°C, 0.01% aqueous solution) |

Recommended dosage: total formula amount 0.1~0.5% (please test the most appropriate dosage before use)

Usage: rK-8230 added antifreeze ingredients, in -5°C above
